Education

Oregon State University — B.S. Computer Science

GPA: 3.54 | Relevant Coursework: Algorithms, Data Structures, Databases, Operating Systems, Computer Networks, Software Engineering, etc.

University of California, Irvine — B.A. Psychology

Dean's Honor List — 5× UCI, 5× OSU

Skills

Languages: Python, TypeScript, JavaScript, SQL, HTML/CSS, x86 Assembly

Frameworks/Libraries: React, Next.js, Node.js, Express.js, Flask, Tailwind CSS

Databases: MySQL, MongoDB

Tools: Git, GitHub, Vercel, Heroku

Project Experience

Job Tracker | [GitHub](#) | [Live Demo](#)

- Developed a full-stack job tracking application using React, Node.js, Express, and MySQL, implementing CRUD functionality for job applications, networking contacts, and user skills.
- Engineered a skill analytics system that aggregates skill requirements across job postings and visualizes skill frequency and user proficiency to identify technical skill gaps.
- Implemented RESTful APIs with Node.js and Express.js and integrated JWT-based authentication to securely manage user accounts and application data.
- Built a responsive React and Tailwind frontend with interactive dashboards for tracking application status, networking contacts, and skill requirements.
- Collaborated with a three-person development team using Git/GitHub to coordinate frontend/backend integration and deploy the application.

Work Experience

Lead Detox Technician, PH Wellness | Riverside, CA

2024 - present

- Lead and coordinate a team of detox technicians, assigning daily responsibilities and ensuring completion of operational tasks
- Manage daily workflow and communicate priorities, concerns, and operational updates to facility leadership
- Train and support team members while maintaining accurate documentation and adherence to facility procedures
